Subject: FCC Class II Permissive Change  
FCC ID: 2AES41002  
Applicant: Valve Corporation

To Whom It May Concern:

This cover letter is for a Class II Permissive Change for FCC ID 2AES41002.

A software power setting was changed. The output power levels were increased on channels where lower output powers were originally used. The Operation Description contains a new power setting table.

The highest original output power has not changed and currently is still the highest output power.

No other changes were made to the EUT.

Best Regards

A handwritten signature in black ink, appearing to read "Jeff Keyzer", followed by a horizontal line.
